Always deliver more than expected

PRODUCT FEATURES

Need a hand carrying cargo to the top floor of your home? Let Vertical Lifts do the heavy lifting for you. Goods Lifts is your go-to provider for home lifts across the nation. Here's what we have to offer you.

Durability

When you have a Goods Lifts installed in your home, you can rest assured it's there for the long haul. That's because they're built with durability in mind. We use rugged aluminum and stainless steel so you never have to worry about rust or corrosion. We even made sure to weather seal the rotary limit switches to guarantee endless smooth, precise stops. Once you have one of our home lifts, you'll never need another one again.

Safety

Your safety is our priority. That's why our home lift has more safety features than any other model on the market. These features include:

- Dual mast design
- Spring-loaded hinges
- Self-closing gate latch
- Dual stainless steel cables rated at 3,200 lbs. each
- An automatic lockable remote

And best of all, Goods Lifts is the only home lift system that utilizes a patent pending breakthrough in safety technology. The CageArrest brake system. This system ensures that no matter what happens — your home lift will never fall.

Versatility

Here at Vertical Lift, we understand that each home presents a unique situation. Luckily, our product adapts to every situation easily because its:

- Customizable for two and three-story homes
- Equipped with a wireless remote control programmable for either two or three floors
- Can have one or two gates
- Available in three different heights

SAFETY FEATURES

Features, Benefits

- Customizable for two and three-story homes
